EDUCATION

University of California, Berkeley　　　　May 2021
B.A. Computer Science, GPA 3.7
Structure and Interpretation of Computer Programs, Data Structures, Linear Algebra and Differential Equations, Information Devices and Systems

EXPERIENCE

Software Engineering Intern　　　　May 2018 - Aug 2018
Everlaw, Inc.
Implemented search capabilities for sophisticated queries across document databases. Optimized site load time by generating aggregated icon spritesheets and corresponding SASS display guides upon project build.

UI & UX Intern　　　　Jun 2016 - Aug 2017
1World Online, Inc.
Collaborated with CEO to design user interface for ICO initiative. Developed multiple websites for investors using HTML/CSS/JavaScript. Crafted surveys that reached audiences of 1.2K+ members to conduct research on user insights.

Teaching Assistant　　　　Jan 2018 - May 2018
CS 399: Ruby on Rails Decal
Taught workshops on RESTful API and routes for a class of 200+ students. Managed coursework, led office hours and graded projects.

PROJECTS

Social Justice Collaborative　　　　Jan 2018 - May 2018
React JS, Ruby on Rails
Built a litigation-oriented web portal to allow Social Justice Collaborative attorneys to manage client creation, data intake, and case tracking. Implemented task management platform to track attorney workflows.

Veterans 360　　　　Sep 2017 - Dec 2017
React Native, Ruby on Rails
Constructed location-based mobile application to connect veterans to resources, events, and jobs. Created application design and prototype.

Allied Funding Group, Inc.　　　　Jun 2017 - Aug 2017
Website Design
Created interactive website for lending group Allied Funding to showcase company mission and initiatives. Developed primarily using HTML/CSS/JavaScript, incorporated Bootstrap and JQuery animations for visual effects.
